

PACKING TIPS

Tips and hints to help make packing for your move easier from Dorm Storage Plus

Protect the contents

Always make sure to properly protect the contents within the your packing containers in order to avoid damage.

Suggestions for packing:

- Use the original boxes to pack computers and other electronics.
- Use Bubble Wrap®, towels, blankets, newspaper, or clothes to pack fragile items.
- Secure enough so they cannot move around inside.

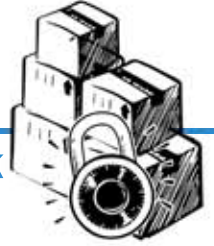

Distribute the weight

We suggest that you separate your heavy items into multiple boxes to avoid over-stressing the boxes.

Tips:

- Mix books with lighter items such as sweaters and bedding.
- Place the heavier objects as close to the center of the box as possible.

Watch what you pack

There are some things you should not store with Dorm Storage Plus, because we do not insure them against loss or damage:

- Jewelry
- Coins or cash
- Collectables
- Items of intangible value.
- Extremely fragile items (e.g. mirrors)

Label your boxes

Please be sure to include the following information on your label:

- Your name
- Your school
- Your email
- Your phone number
